

Thank you for choosing
Pet Personalities

for your pet's photographic needs

A lifetime devoted to photographing your pets!

With over 30 years experience

Photographer, Alissa Behn has been known as Pet Personalities since 1992. She has devoted her life to capturing images of animals, and nature on film, and now pixels.

First published in a dog book ("*Dog Digest*", by Suzanne Bernstein) in 1975. Alissa considers this the start of her professional career as a pet/animal photographer.

This is not however the beginning of her love of photography & animals. Alissa can remember taking photos (with a borrowed Brownie camera) of the neighborhood pets & critters as early as 7 years of age.

While in college, Alissa majored in Equestrian Science. She has an extensive background in training horses (and later dogs). She drew much attention over her shooting style, which involved laying on the ground, under horses jumping. Later, Alissa realized this wasn't a smart shooting technique, and was very lucky she was never landed on, or hurt!

Photography and animals have been a passion for Alissa as long as she can remember. Early in her travels through her photographic history, she would just take photos of pet's for fun. When people started to insist on paying her, she decided to try it more seriously.

Alissa not only shoots action. She started out photographing pets in a studio type environment, and still does this on occasion, usually in the winter months.

These days, Alissa spends most of her time photographing dogs in any and all sports. Her photos are frequently used in magazines, books, calendars, advertising, product packaging and many more places. She feels privileged and honored to photograph your pets. Also honored to be owned by the best dogs on earth!

Alissa *LOVES* her job!

She especially loves bringing smiles (and sometimes tears) to the faces of those who look at her photographs!

*Honored to have shared the long lives of McFee (87-00) & Teaser (93-07).
Your photos are cherished memories of our time together.....*
